

**SAMPLE CERVICAL CANCER RADIO PUBLIC SERVICE ANNOUNCEMENT:**  
**30 SECONDS**

Hello, this is NAME, TITLE, OF ORGANIZATION, and I want to share some good news with all the women of NAME OF COUNTRY/STATE/CITY (CHOOSE APPROPRIATE OPTION).

Cervical cancer can be prevented!

Experts now know that cervical cancer is caused by the human papillomavirus, or HPV. With new combinations of Pap testing, HPV testing, and HPV vaccines, no woman should suffer or die from cervical cancer.

It's up to us to spread the word.

Learn more by joining the Global Consortium of Women to End Cervical Cancer at [www \[dot\] globe women \[dot\] org](http://www.globe-women.org).
